

## Environmental policy

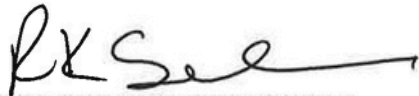

All employees shall contribute for a better **external environment**:

- Always test activities with sustainability in mind
- Prevent pollution and reduce waste from production
- Reduce the use of energy in general
- The principle of substitution shall be used for chemicals and commodities
- Follow our system of fire-protection
- Follow current health and safety regulation

All employees shall contribute for a better **working environment**:

- Keep clean and secure good order at workplace
- Promote for high security by following rules regarding personal protective equipment
- Promote for a developing and stimulating workplace and good comradeship
- Keep informed regarding routines at possible incident or accident
